DO NOT RETURN TO RETAILER

IMPORTANT! - MOUNTING POWER SUPPLIES

This bundle kit includes velcro straps for mounting power supplies to your aquarium stand. Each power supply requires 2 straps.

IMPORTANT! MOUNTING LOCATION

DO NOT mount power supplies above or in a location where they can fall into a sump or filter.

**DO NOT
MOUNT
VERTICAL**

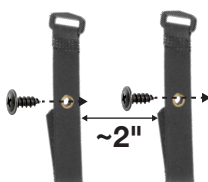

**ONLY MOUNT
HORIZONTAL**

TO MOUNT:

1. Clean mounting location of any dirt.
2. Use wood screws, attach 2 straps ~2" apart horizontally to wall location.
3. Wrap power straps around power supply.
4. Ensure drip loop for all cables and connect as per diagram included.

ONLY mount horizontally away from sump, ideally on the opposite side panel of filter.
