SATELLITE
Freshwater LED +

Satellite Freshwater LED+
Full-spectrum LED fixture with wireless remote controlled color & effects
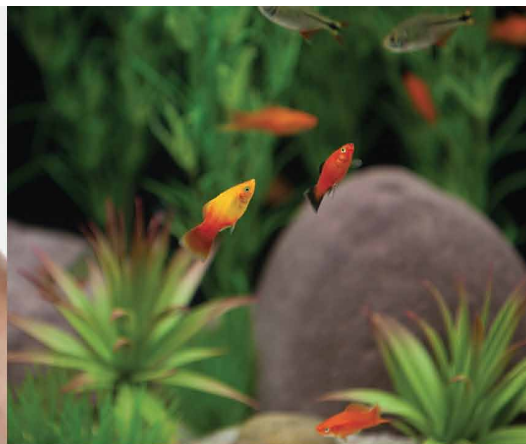

Custom color from your couch
Now you can shift the color of your aquatic environment without shifting your body with the industry's first freshwater-optimized, RGB+White, wireless remote controlled LED fixture.

Super bright 6500K White LEDs are paired with full-spectrum RGB LEDs to offer every color under the sun (and a few that aren't) all controlled from a single 32-key customizable remote.

Game-changing effects
Ready to enter the world of countless possibilities? The Satellite LED+ features effects that you'll have to see to believe, plus each color is individually adjustable for endless custom color blends. Features include: 6, freshwater-optimized, color pre-sets 12, dynamic effects including: cloud cover, fading lunar, storm, lightning, dusk and more 4, memory buttons for saving custom color blends Pause/play each mode on-demand.

Pick a color, any color.
With so much hype into the industry, we decided it was time for a game-changer – reinvent the freshwater aquarium. Drawing on our years of expertise in both fresh and marine aquarium product development we have created another industry first – a full-spectrum, wireless remote controlled, customizable fixture that was engineered from the ground up for freshwater aquarium environments. Making it the perfect choice for a beginner setting up their first tank, or a seasoned veteran looking for a significant upgrade.

The perfect fit
Sliding docking legs allow quick and easy adjustments for a wide variety of installations. This system also makes adding multiple fixtures a snap.

Low voltage, super safe LEDs
Low, 12V DC, IP65 rated LEDs making them super safe for aquarium use. (see chart below for specs)

Stay tuned!
Like what you see? You'll love our new line of marine-optimized products launching soon. Be the first to get all the details. Visit us at www.current-usa.com.
