Timer Mode A - 24 Hour ON/OFF Timer with Custom Scene

Timer A Mode allows a custom lighting scene to turn on and off daily. It's the perfect timing schedule for aquariums installed in offices, waiting rooms, restaurants, or public viewing locations.

Serene's Custom Scene consists of three programs:
Main Lighting Scene - any Main Lighting Program or Daylight (custom static color)
Background Light Scene - any Background Fade, Custom Color (static) or OFF
Audio Program - any audio program or OFF

The below diagram shows the default Timer A program installed with Serene:

MAIN LIGHT: SUNRAYS Program

BACKGROUND LIGHT: Blue to Orange Fade
(100% Brightness)

AUDIO: Stream (50% Volume)

ON TIME: 07:00
(Custom scene turns on at 7:00 am)

OFF TIME: 17:00
(Custom scene turns off at 5:00 pm)
